Q2 2026 Growth Commitments

17 MARCH 2026
DIVYANSHU & LAKSHYA · APRIL – JUNE 2026

Over the next three months we want to focus on a few areas that can genuinely move the business forward.

The idea is simple — focus on the work that brings real visibility, stronger partnerships, and better operational clarity. The numbers below are not theoretical goals. These are practical targets we believe we can execute while working closely with the team.

We will stay active on ground, coordinate with partners, and help push the systems that are already being built inside the company. Execution will begin from 20 March instead of the following Monday because the SRCC Crossroads festival already gives us an early opportunity to start working on visibility and consumer engagement.

OUR COMMITTED TARGETS — APRIL – JUNE 2026

TRACKING

Every Sunday evening we will share a short update sheet showing: numbers achieved that week, screenshots where relevant, and next week's priorities. This keeps the process transparent for everyone involved.

COMMITMENT

Our goal is simple. Stay consistent, stay practical, and gradually build systems that make growth easier for the team. These commitments are realistic for the next three months and we are ready to begin execution immediately.

Best regards,

Divyanshu & Lakshya
